BRIEF SUMMARY

I'm a passionate MERN stack web developer & love turning ideas into interactive, user-friendly & scalable web applications. With a strong foundation in skills like HTML, CSS, JavaScript, React, Redux, Node.js, Express, Next.js & MongoDB, I focus on building clean, efficient, & visually appealing solutions. I enjoy working on both frontend & backend, integrating APIs, optimizing performance, and ensuring a smooth user experience. Always curious and eager to learn, I keep exploring new web technologies to bring fresh ideas into my projects.

KEY EXPERTISE

JavaScript , React , Node.js , Express , MongoDB , HTML , CSS

EDUCATION

Medicaps University B.Tech. - CSE - Artificial Intelligence CGPA: 7.92 / 10	2022 - 2026
Golden Future Public H.S School, Indore 12 th MPBSE Percentage: 89.80 / 100	2021
St Mary Champion H.S School, Indore 10 th CBSE Percentage: 90.20 / 100	2019

INTERNSHIPS

Sky Technosoft Pvt Ltd IT / Computers - Software Web Developer Key Skills: javascript , react.js , mongoDB , node.js , Express , html , css I collaborated closely with the development team on live projects centered around contemporary web technologies while I was a web development intern at Sky Technosoft Pvt. Ltd. Building scalable and responsive web applications utilizing Next.js and React.js for the frontend and Node.js and Express.js for the backend was my main responsibility. Additionally, I developed practical skills in RESTful API implementation, database administration with MongoDB, and effective front-end/back-end integration. My ability to solve problems, produce clear, maintainable code, and adhere to full-stack development best practices has all improved as a result of my internship. The internship gave me a deeper grasp of the architecture and deployment of real-world web applications, as well as invaluable industry exposure and teamwork experience.	24 May, 2025 - 24 Jul, 2025
---	-----------------------------

E SKILLS WEB LLB IT / Computers - Software Web developer Key Skills: Web Development React.js , javascript , html , css , mongoDB , node.js , Express As a MERN Stack Development Intern at E-Skills, Indore, I obtained practical experience in developing full-stack web applications with MongoDB, Express.js, React.js, and Node.js. Creating and integrating REST APIs, managing databases, putting authentication features in place, and designing responsive user interfaces were all part of my job. Additionally, I worked in an agile environment with my team, which enhanced my comprehension of full-stack development overall and helped me with problem-solving, debugging, and deployment.	24 Aug, 2024 - 28 Feb, 2025

PROJECTS

Expenso-Money Tracker App

01 Jul, 2025 - 07 Jul, 2025

Team Size: 1

Key Skills: React.js , TailwindCSS Node.js , Express , MongoDB

Project Link: <https://expenso-80pe.onrender.com/>

Expenso is a full-stack MERN web application for tracking and managing personal finances. Users can log and categorize income/expenses, with Chart.js visualizations for real-time cash flow insights. The frontend, built with React, offers a clean UI, transaction filtering, sorting, and Word file export for offline reports. The backend uses Node.js and Express.js for APIs, MongoDB for secure storage, and authentication for data privacy.

A planned AI advisor module will analyze spending patterns, suggest cost-cutting measures, and help users achieve financial goals through smart budgeting. Future enhancements include multi-user support, advanced analytics, and customizable financial goal tracking.

DevPractice – Online Code Playground

21 Jun, 2025 - 25 Jun, 2025

Mentor: Shabbar Khan | Team Size: 1

Key Skills: React.js , Node.js , Redux , TailwindCSS , Express

Project Link: <https://dev-practice-v1.onrender.com/>

DevPractice is a full-stack MERN web app inspired by CodePen and JSFiddle, allowing users to write, preview, and experiment with HTML, CSS, and JavaScript in real time. Built with React.js, Tailwind CSS, and Monaco Editor, it offers a modern, VS Code-like editing experience. The backend uses Node.js, Express.js, and MongoDB for project data and sessions, with Firebase Authentication for secure logins. Redux manages state efficiently, enabling authenticated users to create, save, and manage personalized code playgrounds.

Wheelie - Car Rental Web Application

10 May, 2025 - 29 May, 2025

Mentor: Imran Khan | Team Size: 1

Key Skills: Node.js , Express , React.js , Redux , JavaScript , TailwindCSS

Project Link: <https://wheelie-frontend.onrender.com/>

Wheelie is a full-stack MERN-based car rental platform designed to provide a seamless experience for both admins and users through role-based dashboards. Admins can manage car listings, monitor rentals, and respond to queries, while users can browse vehicles, book cars, and track their reservations. The platform ensures secure authentication and authorization, supports CRUD operations, protected routes, and dynamic routing, and delivers a fully responsive UI with real-time state management using React hooks and Context API.

GIT: <https://github.com/animeshthakur7879/Wheelie-Car-Rental>

TradeX - Crypto Trading Platform

18 Mar, 2025 - 22 Mar, 2025

Mentor: Imran Khan | Team Size: 1

Key Skills: React , Redux , TailwindCSS

Project Link: <https://tradex-crypto.netlify.app/>

TradeX is a frontend-focused cryptocurrency trading simulation platform built with React.js, Redux, Tailwind CSS, and JavaScript. It enables users to explore trending cryptocurrencies, view real-time market insights via live APIs, and simulate trades through an interactive trading cart. The app supports features like search, filtering, dynamic pricing, market cap, and percentage change tracking, offering an engaging and risk-free learning experience for beginners. With Redux-managed state and a fully responsive UI, TradeX provides smooth interactions and consistent performance across all devices.
