BRIEF SUMMARY

I'm a passionate MERN stack web developer & love turning ideas into interactive, user-friendly & scalable web applications. With a strong foundation in skills like HTML, CSS, JavaScript, React, Redux, Node.js, Express, Next.js & MongoDB, I focus on building clean, efficient, & visually appealing solutions. I enjoy working on both frontend & backend, integrating APIs, optimizing performance, and ensuring a smooth user experience. Always curious and eager to learn, I keep exploring new web technologies to bring fresh ideas into my projects.

KEY EXPERTISE

JavaScript , React , Node.js , Express , MongoDB , HTML , CSS

EDUCATION

Medicaps University   2022 - 2026
B.Tech. - CSE - Artificial Intelligence | CGPA: **7.92 / 10**

Golden Future Public H.S School, Indore   2021
12th | MPBSE | Percentage: **89.80 / 100**

St Mary Champion H.S School, Indore   2019
10th | CBSE | Percentage: **90.20 / 100**

INTERNSHIPS

Sky Technosoft Pvt Ltd | IT / Computers - Software   24 May, 2025 - 24 Jul, 2025
Web Developer
I collaborated closely with the development team on live projects centered around contemporary web technologies while I was a web development intern at Sky Technosoft Pvt. Ltd. Building scalable and responsive web applications utilizing React.js for the frontend and Node.js and Express.js for the backend was my main responsibility.

Additionally, I developed practical skills in RESTful API implementation, database administration with MongoDB, and effective front-end/back-end integration. My ability to solve problems, produce clear, maintainable code, and adhere to full-stack development best practices has all improved as a result of my internship.

E SKILLS WEB LLB | IT / Computers - Software   24 Aug, 2024 - 28 Feb, 2025
Student Intern

Key Skills: Web Development   React.js , javascript , html , css , mongoDB , node.js , Express

As a Student Intern at E-Skills, Indore, I gained practical experience in developing full-stack web applications using MongoDB, Express.js, React.js, and Node.js. For the first four months, I underwent intensive training that strengthened my fundamentals in full-stack development. In the following two months, I applied this knowledge by working on real-world projects, which included creating and integrating REST APIs, managing databases, implementing authentication features, and designing responsive user interfaces.

PROJECTS

Personal Portfolio Website   31 Aug, 2025 - 03 Sep, 2025
Project Link: https://animeshthakur.netlify.app/

Developed a responsive and interactive portfolio using React.js, Tailwind CSS, Inspira component library, and Spline for 3D elements. Showcases projects, skills, and experiences with a clean UI/UX design. Implemented reusable components, smooth navigation, and modern styling to create a professional digital presence.

Expenso-Money Tracker App   01 Jul, 2025 - 07 Jul, 2025
Project Link: https://expenso-80pe.onrender.com/

Expenso is a full-stack MERN web application for tracking and managing personal finances. Users can log and categorize income/expenses, with Chart.js visualizations for real-time cash flow insights. The frontend, built with React, offers a clean UI, transaction filtering, sorting, and Word file export for offline reports. The backend uses Node.js and Express.js for APIs, MongoDB for secure storage, and authentication for data privacy.

A planned AI advisor module will analyze spending patterns, suggest cost-cutting measures, and help users achieve financial goals through smart budgeting. Future enhancements include multi-user support, advanced analytics, and customizable financial goal tracking.

DevPractice – Online Code Playground
21 Jun, 2025 - 25 Jun, 2025

Mentor: Shabbar Khan
Project Link: https://dev-practice-v1.onrender.com/

DevPractice is a full-stack MERN web app inspired by CodePen and JSFiddle, allowing users to write, preview, and experiment with HTML, CSS, and JavaScript in real time. Built with React.js, Tailwind CSS, and Monaco Editor, it offers a modern, VS Code–like editing experience. The backend uses Node.js, Express.js, and MongoDB for project data and sessions, with Firebase Authentication for secure logins. Redux manages state efficiently, enabling authenticated users to create, save, and manage personalized code playgrounds.

Wheelie - Car Rental Web Application
10 May, 2025 - 29 May, 2025

Mentor: Imran Khan
Project Link: https://wheelie-frontend.onrender.com/

Wheelie is a full-stack MERN-based car rental platform designed to provide a seamless experience for both admins and users through role-based dashboards. Admins can manage car listings, monitor rentals, and respond to queries, while users can browse vehicles, book cars, and track their reservations. The platform ensures secure authentication and authorization, supports CRUD operations, protected routes, and dynamic routing, and delivers a fully responsive UI with real-time state management using React hooks and Context API.

ACHIEVEMENTS

- Runner-up , Quasar 2.0 Hackathon (2025) - Organized by 47 Billion
- Top 10 out of 19,000+ teams - Odoo Hackathon 2025 (350+ finalist teams in the final round)

ASSESSMENTS / CERTIFICATIONS

JAVA (core + adv)

Key Skills: java

CO-CURRICULAR ACTIVITIES

- State level Taekwondo player

PERSONAL INTERESTS / HOBBIES

- Hackathons , UI/UX Design Exploration , Photography
